UWS neighborhood EDUCATION and PERSONAL ACTION

Seeking Youth Involvement

Young people are the drivers of change for the climate crisis. We would like to partner with school groups, clubs or individual students to help us grow and spread the word about individual actions we can take to be climate positive. We can offer assistance in the form of **community service credits** to students who can help us with research, artwork, social media, game making, tech skills etc. If you know any kids in our neighborhood who might be interested in working with us please have them contact us at itseasybeinggreen.uws@gmail.com.

Shout out...

Trader Joe's. Yes, I know, it's not local, but they have been working to eliminate plastics. I recently discovered that the sleeves on their cards are now compostable and some of their cherry tomatoes come in cardboard instead of plastic clamshells. Baby steps!

Climate: The Positive Role of NYC Parks

We invite you to attend IEBG's first lecture. Listen to Dan Garodnick, President and CEO of the Riverside Park Conservancy discuss the role of parks in climate mitigation and the challenges Riverside Park faces from our Climate Emergency.

Thursday November 7th, Anshe Chesed, Room 5N
 251 W 100th Street (btwn WEA & Broadway)

Please RSVP at ItsEasyBeingGreen.UWS@gmail.com

Around Town...

Danny O'Donnell and the Dept. of Sanitation are hosting an event called Learn About Composting, on Wednesday, October 16 between 7-9PM. It will take place in the Soho Room at Hosting International, 891 Amsterdam Ave (btwn 103rd and 104th Streets). Call O'Donnell's office at 212-866-3970 to RSVP.

104th St Block Association Yard Sale

On Saturday September 21st IEBG had a table at 104th St Block Associations Annual Yard Sale. A big thanks to all the IEBG volunteers, and their spouses, who helped to make our booth a success.

Our booth featured games and information, including a very long guest appearance by Micheal Reiser of GrowNYC.

By our own estimate, we had more than 150 stop by the booth to take our Climate Quiz and play our Recycling Game. We had many more stop by to talk all things compostable! We did lure them in with a prize of fresh brownies and home-baked cookies...all in compostable bags, of course.

Reduce Reuse Recycle Refuse

Membership in It's Easy Being Green

Who We Are

A Climate Crisis information and personal action group

What We Are Doing

Working with local markets to reduce single use plastics

Increase number of buildings participating in Curbside Organics Collection

Creating incentives for local businesses to adopt green practices

Who Can Join

Members of 102nd/103rd and 104th St Block Associations

Members of Bloomingdale Aging in Place, 96-110th St and Riverside to CPW

Anyone is free to join our Newsletter
